Dear Madam Obiageli,

Good afternoon, and thank you for sharing the 2026 NEITI Workplan template, as directed by the Executive Secretary.

On behalf of the Civil Society constituency, I acknowledge receipt of the document and appreciate the early commencement of this important annual process. We fully recognize the central role the workplan plays in guiding Nigeria's EITI implementation and ensuring alignment with national priorities, global standards, and stakeholder expectations.

I will immediately circulate the template across the wider civil society constituency—including PWYP Nigeria, the Natural Resource Governance Network, community-based monitors, and thematic CSO working groups—to gather inputs, recommendations, and proposed activities. We will consolidate our feedback and submit it within the stipulated timeframe. You will be copied accordingly on all relevant correspondence to ease coordination.

We look forward to contributing robustly to this process and to working with NEITI and other constituencies to strengthen transparency, accountability, and good governance in Nigeria's extractive sector in the year ahead.

Thank you once again.

Kind regards,

Dr. Danladi Erisa
Civil Society Representative
NEITI National Stakeholders Working Group

Dear Esteemed Chairs of the NEITI-Companies Forum & CCSSC,

A very good afternoon to you Sir/Ma

It is the practice that every year NEITI on behalf of the Federal Government of Nigeria, coordinates the workplan that will guide the implementation of the EITI Standard in line with government's priorities.

2026 is here and NEITI has commenced the process of collating inputs from industry, government and civil society in order to have a comprehensive workplan to guide our activities.

Please find attached the template for Nigeria-NEITI's workplan.

As is also the practice, the ES has directed that the template for this year's workplan should be shared with you for onward circulation and discussion with your respective constituencies.

Kindly share this template to your wider constituency for inputs and comments. Feel free to suggest activities that you arrived at with your constituencies to deepen EITI implementation in Nigeria.

Copy me where necessary in the mails to make it easy to track and coordinate the process.

NEITI will share the final draft of the workplan for your comments after collation.

Thank you and kind regards.

Obiageli Onuorah

Director, Communication & Stakeholders Management
