Dear sir/ma.

Trust this mail meets you well.

Having circulated the Stakeholders' Group's Report on the Determination of Materiality Threshold on the Solid Minerals Sector for 2022-2023 among the cross section of our members, Miners Association of Nigeria has come to the conclusion that the report meets the optimum requirements in all the determination parameters.

Meanwhile, the Ministry of Solid Minerals Development has initiated steps for the review of the various fees, levies and royalty rates payable in the Sector.

We hope the outcome of this review will be incorporated in subsequent reports.

Thank you.

'Dele Ayanleke,
National President,
Miners Association of Nigeria.
